Rosé

Rosé

Rosé vina pridobivajo na popularnosti, predvsem v poletnih mesecih. Vinarji lovijo svežino, ki smo je navajeni pri belih vinih, hkrati pa polne sadne okuse, ki jih dobijo z nežnim namakanjem kožic rdečega grozdja, večinoma manj kot 48 ur, za nežno roza barvo. Najlepša so kot aperitiv, s poletnimi solatami, kakšno resnejše pa se lahko zelo lepo poparčka tudi z nežnejšimi mesnimi jedmi.

Rosé wines have been steadily gaining popularity, especially in the summer months. Winemakers are looking for the freshness you get from white wines, but also the fruit aromas you get from gently macerating red grape skins. Most of the time this happens for less than 48 hours, leaving just a gentle pink shade to the wine. Wines are most beautiful as an aperitivo, with summer salads, some more serious version can even handle more delicate meat dishes.

Bela vina Brda-Collio

White wine of Brda-Collio

Brda ali Collio po Italijansko, imajo izjemno kompleksno zgodovino. Ljudje z različnih kultur so si tam ustvarili dom, od Slovencev, Italijanov, Avstrijcev in še. Vse to je vidno ne samo v raznovrstnosti Bricev in njihovih priimkov, ampak tudi v raznovrstnosti pristopa in filozofije do vinarjenja. Ker Slovensko in Italijansko stran loči zgolj mejni kamen, smo regijo združili. Kot bi moralo biti ;).

Brda, or Collio in Italian, have a very complex history. People of different cultures built their homes there, from Slovenians, Italians, Austrians, and more. You can feel all this, not only by their last names, but also with the differing approaches, and their winemaking philosophies. Since the Slovenian and Italian side are separated only by a boundary stone, we decided to combine the region into one. As it should be ;).

Bela vina Vipavske Doline

White wine of Vipavska Dolina

Vipavska dolina že od 16. stoletja goji grozdje, pa vendar je vedno občutek, kot da je prišla malce pozno k zabavi, predvsem Brici so jih malce prehiteli. Počasi se ta razlika zmanjšuje, v marsikaterih pogledih, so Vipavci celo močnejši. Dolga dolina je odlična za vrhunsko vinogradništvo, predvsem zaradi krasne pretočnosti zraka in energije, ki zagotavlja zdravo in kvalitetno grozdje. Avtohtone sorte so počasi vračajo, predvsem Pinela in Zelen, veliko poudarka pa je tudi na Malvaziji in penečih vinih.

Vipavska dolina has been producing wine since the 16th century, but somehow it feels they were late to the party. Brda have been overtaking them, but slowly the differences are getting smaller. In some aspects, they are taking charge. The long valley is perfect for high quality grapes, with the beautiful movement of air and energies through the valley floor. Local varieties are slowly making a comeback, mainly with Pinela, and Zelen - a lot is being put on Malvazija, as well as some wonderful sparkling wines.

Bela vina Istre in Krasa

White wine of Istra and Carso

Istra je krasna dežela, na obeh straneh meje. Topla mediteranska klima, je zauzdana s strani gričev na slovenski strani, in vetrov na hrvaški. Najpomembnejša bela sorta tu je seveda Istrska Malvazija, ki ustvarja vina, iskrena svojemu terroirju. Kras ali Carso, je samo nekaj kilometrov severno od Istre, a je regija popolnoma drugačna. Vitovska Grganja dobiva svojo moč, saj je sposobna ustvariti intenziva, kompleksna vina.

Istra is a beautiful land on both sides of the border. It has this beautiful warm mediterranean climate, tempered by hills in Slovenia, and the wind in Croatia. The main grape variety is Malvazija - Malvasia Istriana. A grape that can produce unique wines, that are very susceptible to their micro-climate. Kras or Carso is only a few kilometres North of Istra, but the region could not be more different. Vitovska Grganja is finally getting some traction as it is capable of producing some intense and complex wines.

Bela vina Štajerske

White wine of Štajerska

Štajerska se vedno bolj razvija v vinskem svetu in razvija močnejšo identiteto. Vplivi z Avstrije, Hrvaške in Madžarske se kažejo v sortah ki jih gojijo. Vina so prepoznavna po svežini in mineralnosti, razvijajo pa se tudi Cru-ji, ki zagotavljajo izjemno kompleksna in bogata vina. V Posavju se razvija produkcija penečih vin, ampak tudi mirna vina postajajo zanimiva. Posavje je še vedno ena redkih slovenskih regij, ki proizvaja več rdečih, kot belih vin..

Štajerska is starting to develop in the wine world, and starting to showcase its identity. Influences from Austria, Hungary, and Croatia are evident in the varieties used for their wines. These are mainly recognised by their remarkable freshness and minerality, and with some Crus starting to emerge, richer, more complex wines are being shown to the public. Posavje is a region becoming known for sparkling wines, but some still wines are increasingly more interesting. Posavje is one of the few Slovenian wine regions, that produces more red, than white wine.

Bela vina naših sosedov

White wine of our neighbours

Slovenija je lahko srečna, kajti ne obkrožajo je samo 4 države, ampak tudi 4 popolnoma različne kulture. Latinska, germanska, ugro-finska in balkanska, vse poti ze združijo pri nas. Italijani, Avstrijci, Madžari in Hrvati, imajo vsi močno vinsko kulturo, ki nam je dostikrat v inspiracijo, zato vam želčimo v tem odseku pokazati nekaj najljubših primerov naših sosedov.

Slovenia can be very happy, not only because it is surrounded by 4 different countries, but also 4 different cultures. Latin, germanic, ugro-finnish, and balkan, all of them merge in Slovenia. Italians, Austrians, Hungarians, and Croats, all have a very strong wine culture, which can be a great inspiration to us. To showcase that, we wanted to introduce you to some of the finest examples from our neighbours.

Bela vina Francije

White wine of France

Francija je dolga leta imela primat v vinih. Njihova obsesija s kvaliteto, naravo in fantastičen marketing, so jih izstrelile na vrh najboljših vin na svetu. Burgundija ustvarja najboljše Chardonnaye na svetu, njihova unikatnost je prepoznavna na nosu, v Juri, najdete kaj bolj zanimivega, kot recimo Vin Jaune, vino starano pod plastjo kvasovk, tudi izjemno kvalitetne Savagnine. V Dolini Rone so kompleksna vina, narejena iz različnih sort, ki vsaka doda svoj kamenček mozaiku.

France has long been at the top of the wine world. Their obsession with quality, the nature, and fantastic marketing, shot them to the top of World's best wines. Burgundy produces some of the best Chardonnays in the World, with their unique character evident on the nose. Jura produces some unique wines, like Vin Jaune - wine aged under a layer of yeast and some beautiful examples of Savagnin. Rhone Valley focuses on blends, with each variety bringing a bit of character to the finished wine.

Rdeča vina Brda - Collio

Red wine of Brda - Collio

V Brdih kraljujejo bela vina, vendar to ne pomeni, da moramo pozabiti na rdeča. Krasni Merloti in Cabernet Franc, tudi kakšne mešane zvrsti po zgledu Bordojev se najdejo. Merlot, večinoma iz nižinskih leg ima precej globine in kompleksnosti, Cabernet Franc pa razvije sveže okuse borovnic in zanimive arome zelišč, ter poletnih vrtnin. Pojavlja se tudi vedno več Modrega Pinota, ki ga skrivajo pred soncem v hladnejše lege, da ta delikatna zvrst res razvije kompleksno cvetico.

Brda is ruled by the whites, but that does not mean, we should forget about the reds. Beautiful Merlots and Cabernet Francs, there are also some wonderful Bordeaux blends. Merlot is mostly planted on low lying areas, with a lot of sun exposure, which helps develop depth and complexity, while Cabernet Franc develops fresh flavours of blueberries, fresh herbs and summer garden flavours.

Rdeča vina Vipavske doline

Red wine of Vipavska dolina

Rdeča vina z Vipavske doline pridobivajo na prepoznavnosti. Merlot, Barbera, Modri Pinot, pa še kaj se najde. Prepletajoči se stili biodinamičnih, naravnih in klasičnih vin nam ponujajo raznovrstnost, mikro-klimatske spremembe pa še dodatno vplivajo na posebnost teh vin. Modri Pinot lovi hladnejše lege za maksimalno svežino in delikatne arome. Merlot pa na prepihu burje zadrži nežnost okusov sliv, s svežim pridihom rdečega jagodičevja.

Red wines of Vipavska dolina are gaining traction. Merlot, Barbera, Pinot noir and more can be found in this unique valley. Biodynamic, natural, and classic styles intertwine to give us a wide range of wines. Micro-climates of the long valley allow for even more subtle changes and differences in the wines. Pinot noir prefers cooler areas where it can retain maximum freshness, and delicate aromas. Merlot on the other hand is cooled by Burja winds allowing it to retain gentle plum flavours, and fresh red berry aromas.

Rdeča vina ostale Slovenije in Hrvaške

Red wine of the rest of Slovenia and Croatia

Istra je široka regija, vse od JZ Slovenije pa skoraj do sredi Hrvaške. Velik razpor prsti, in toplejše podnebje nam prinaša bolj polna, sadna vina. Tu najdemo Refošk, Cabernet Sauvignon, Merlot, tudi Italijanske sorte. Podobnost s Toskano, tako vizualno kot klimatično je navdahnila vinarje. Vzhod Slovenije, pa se s svojim hladnim pridihom ponuja nežnejšim sortam kot je Modri Pinot, a avtohtona Modra Frankinja je kraljica.

Istra, a large region ranging from SW Slovenia and half of Croatia. Wide range of soils, and warmer climate bring richer, fruitier wines. Beautiful Refosco, Cabernet Sauvignon, Merlot, and lately. Italian varieties grow here. Similarities with Tuscany, both visually and climatically have inspired winemakers. The East of Slovenia, with its cooler climate lends itself to lighter varieties such as Pinot Noir, but native Modra Frankinja is the queen of reds here.

Rdeča vina Francije

Red wine of France

Francija je dežela kontradikcij. V Burgundiji častijo vinograde, bolj kot častijo vinarja, v Bordeauxu je obratno. Po eni strani elegantno in delikatno, na drugi globoko in intenzivno. Pravega odgovora ni, čar francoskih vin pa je ravno v tem, da nam ponuja detajle.

France is a land of contradiction. In Burgundy they worship the vineyards, and not the winemaker. In Bordeaux it's the opposite. One is elegant and delicate, the other deep and intense. There is no right answer, but the magic of French winemaking is to give us the details.

Rdeča vina ostale Evrope

Red wine of the rest of Europe

Tudi drugje po Evropi nastajajo krasna vina. Vinarne lahko najdemo v državah kot so Švica, Britanija, Ukrajina, Moldavija, pa seveda tudi bolj prepoznavne Španija, Portugalska in Nemčija. V našem izboru Ostale Evrope, iščemo malce bolj »čudne« etikete, s katerimi vam lahko ponudimo nekaj drugačnega.

You can find incredible wines elsewhere in Europe as well. Wineries can be found in countries like Switzerland, Britain, Ukraine, Moldova, and of course the more established Spain, Portugal and Germany. In our Rest of Europe selection, we are looking for slightly »weirder« bottles to show you, to give you a taste of something new.

Desertna vina

Dessert wines

Desertna vina niso samo čudovita popotnica na koncu večera, ampak lahko odigrajo ključno vlogo pri sladica. Pravilno parjeno vino s sladico, dvigne okuse, izenači sladkost, in pomaga narediti še tisto malo prostora potrebnega za sladico.

Dessert wines are not just a wonderful night cap, but they can play a crucial role with desserts. Correctly paired wine with dessert, will elevate flavours, balance the sweetness, and help make a little more space in the belly for the dessert.
